

EVERYTHING YOU EVER WANTED TO KNOW

Within the next couple of weeks, each one of my clients will receive a copy of Pamela Yellen's new book in the mail from Amazon for their family, compliments of me.

Pamela's book is the best educational piece on BOY I have seen. It is written in a simple clear way and uses real life stories to teach the reader about BOY. **Several of the people talked about in the book are actually members of our planning family!** I know you will find it useful even if you have been using BOY for a while.

However, you do not have to wait for the book to get some great information on BOY and increase your knowledge of this great concept.

In conjunction with the book, Pamela launched a brand new website designed to give you all the information you want without overwhelming you or giving you a headache.

Check it out! The address is www.bankonyourself.com.

Those of you who are not yet clients should really find this website helpful. There is also a link to order the book if you decide you would like a copy.

Once you have experienced this great website, I hope you all will also want to share it with people you care about.

With all the turmoil and upset in the economy today, people do not know where to turn or who to believe for advice on what to do with their money.

You have the power to help them begin to find some answers.

If someone wants to have a free, no obligation consultation with me, it is easy to do. All they have to do is remember to put my name in the information request they would fill out on the website. I work all over the country, so it doesn't even matter where they live.

I am making the newsletter this month intentionally short because I want you to spend time looking at the website.

See you next month!

HAPPY SPRING!!!
